Class History

In 1960, seventy boys and girls entered the Jim Thorpe Senior High School. Our main ambition was to seek a better education and to prepare ourselves for our future places in the world.

When we returned as juniors we had become accustomed to our surroundings and we began to increase our activities, both scholastically and athletically.

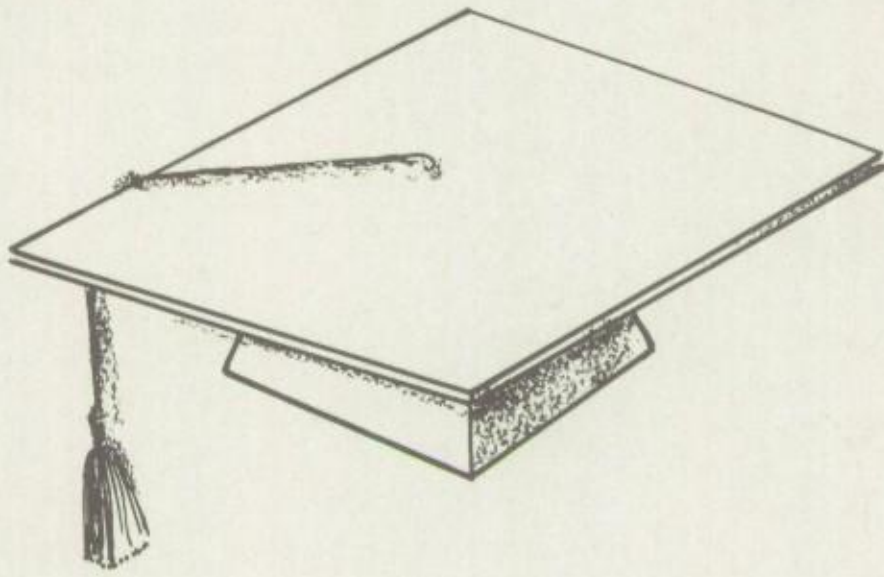

Now, as seniors, we have entered our final step of secondary education. We are already facing the problems and challenges of life, the acceptance of which will be determined by the superiority of our knowledge. As we receive our diplomas on Commencement Eve, we go before the world as tomorrow's men and women.
